Technical Talk on Engineering the Wave of AI Super Cycle

The Department of Artificial Intelligence and Machine Learning (AIML) at Vignan's Foundation for Science, Technology & Research (VFSTR) organised a technical talk titled "Engineering the Wave of AI Super Cycle" on October 24, 2026, as part of the Alumni Masterclass Series featuring the 1999–2003 batch. The programme was organised in association with the Office of Industry Relations and the Office of Alumni Linkages to strengthen academia–industry collaboration and familiarise students with emerging technological developments.

The session featured Mr. Rajendra Lakshmi Prasad B, Director of Engineering at Amadeus, and Mr. Siva Prasad Sukananchi, Principal Technical Specialist at Nokia, as resource persons. Drawing on their extensive industry experience, the speakers shared valuable insights into the rapidly evolving

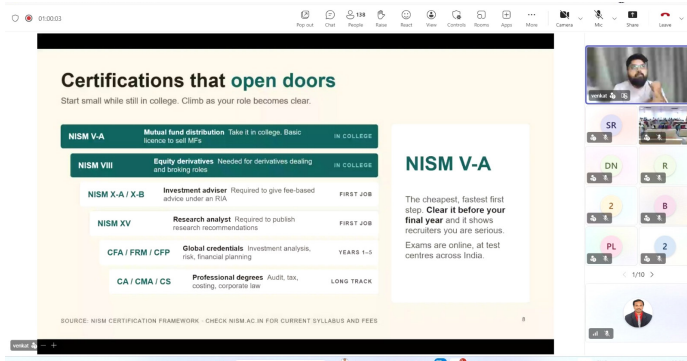

technology landscape and the transformative impact of artificial intelligence on engineering and innovation.

Centred on the AI super cycle, the talk emphasised the growing significance of AI-driven technologies across industries, the need to adapt to emerging trends, and the importance of developing strong technical competencies to meet future industry demands. The session provided students with an opportunity to gain industry-orientated perspectives, understand evolving career opportunities, and recognise the importance of continuous learning in a technology-driven world.

The programme reinforced VFSTR's commitment to bridging the gap between academic learning and industry expectations through meaningful alumni engagement and knowledge sharing.

Alumni–Student Interaction on Finance and Corporate Careers

The Department of Management Studies, VFSTR, organised an online Alumni–Student Interaction for MBA and BBA students, coordinated by Dr. A. Sai Manideep. Venkatesh Dodla (MBA 2016–18), Head of Operations at Guardian Capital Investment Advisors, delivered “Finance Connect — Alumni Insights for Future Professionals & Financial Analytics”. He explained accounting versus finance, career paths in banking, investments and operations, and highlighted NISM certifications, Excel skills, continuous learning and AI tools.

Umasaikiran Minnakuri (BBA 2019–22), gold medalist and Project Manager at Wipro, presented “Navigating the Corporate World: Projects, People & Professional Growth”, discussing IT project delivery, project management offices, client and team management, and non-developer technology careers.

Students raised questions on certifications, internships, SIPs, research, international opportunities, leadership and AI’s job impact. Among 74 feedback responses, 86.8% rated Dodla’s session and 92.6% rated Minnakuri’s session “Good”. Dr. Manideep thanked both alumni and proposed forwarding unanswered questions for replies, expressing hope for Minnakuri’s campus visit.

Branch-wise Attendance Entry Status Report for 26-10-2026

Branch Name	Total No of Periods	No of Periods Posted Attendance In-Time	No of Periods Posted Attendance Late
BIOTECH	60	26	34
